### **Leading US manufacturer of RF and Microwave Test Equipment Signs On New Sales Organization for Southeastern US**

Parsippany, NJ - January 1, 2003 – Boonton Electronics announced today the signing of Sunforce, Inc. to provide sales and support in the Southeastern US, encompassing the states of Florida, Georgia, North Carolina, South Carolina, Alabama and Mississippi. Sunforce brings an experienced staff of sales professionals focused on design, development, and test solutions within the electronic manufacturing industry. As a strategic business partner of Boonton, Sunforce will provide sales and application engineering support for Boonton products and services across a broad range of test solutions in the electronics community, with special focus in Military/Aerospace, RF/Wireless markets.

Boonton is a leading U.S. manufacturer of RF and microwave test and measurement equipment, and is recognized as a leader in power measurement and analysis of RF and microwave systems used in both military and commercial sectors. The company also manufactures impedance measuring instruments, RF voltmeters and audio analyzers.

#### **About Boonton**

Founded in 1947, Boonton Electronics has developed a reputation for innovative solutions to the design of power meters, RF voltmeters, and impedance measuring equipment.

Boonton has recorded several important "firsts" over the years, including the first power sensors using full-wave rectification and the first two-channel power meter. Keeping its core products intact, Boonton has designed new products for the emerging wireless applications, including cellular/PCS, direct satellite broadcasting, and HDTV.

Boonton's diverse and innovative products are currently used to test terrestrial and satellite communications, radar telemetry, electronic warfare (EW), electronic countermeasures (ECM), and an expanding number of wireless communications products.

Boonton Electronics is a wholly owned subsidiary of Wireless Telecom Group, Inc. traded publicly on the American Stock Exchange under ticker symbol "WTT". Wireless Telecom Group, Inc. operates under the trade name NoiseCom, a provider of RF and Microwave based noise test instruments for telecommunications, cable and military applications.

Boonton Electronics. Corporate Offices – 25 Eastman Drive, Parsippany NJ 07054-0465  
Phone: (973) 386-9696.

#### **About Sunforce**

Sunforce is a Southeastern US sales organization, headquartered in Melbourne, FL, with offices in Florida, Georgia, Alabama, and North Carolina.

Sunforce markets and supports a wide range of test and measurement equipment including VXI and CompactPCI instrumentation, digitizers, switching systems, arbitrary waveform generators, avionics databus interfaces, AC and DC power supplies, RF power meters, RF synthesizers, microwave counters, JTAG / boundary scan systems, cable/backplane testers, mass interconnect systems, and ruggedized enclosures.

Sunforce, Inc – 1103 Hibiscus Blvd, Suite 310, W Melbourne, FL 32901 – Phone: (321) 722-1324.
