

Symtx Announces New Business Partner for Local Sales and Applications Engineering in Southeast

Largest Independent U.S. Provider Of Custom Functional Test Solutions Signs On New Sales Organization For Southeastern US

AUSTIN, TX November 1, 2002 – Symtx, Inc. announced today the signing of Sunforce to provide local sales and application support in the Southeastern US, encompassing the states of Florida, Georgia, North Carolina, South Carolina, Alabama and Mississippi. Sunforce brings an experienced staff of sales professionals focused on manufacturing and functional test solutions within the electronic manufacturing industry. As a strategic business partner of Symtx, Sunforce will provide sales and application engineering support for Symtx products and services across a broad range of test solutions in the Hi-tech community, with special Military/Aerospace, RF/Wireless, and Optical focus.

“Symtx is the leading supplier of custom, functional test systems in the US, and is known for its expertise, quality and ability to address the most demanding ATE requirements. Sunforce has the customer relationships and local support that Symtx needs to best meet the needs of our customers in the Southeast,” says Symtx President and CEO, Leonard Gilmore. The expansion of Symtx’s strategic partners program and the relationship being announced today with Sunforce, includes the recently announced line of Symtx configurable system platforms. These platforms simplify the way customers acquire products and shorten delivery times.

“Sunforce is excited to represent Symtx and bring their test expertise to our customers,” says Andy Haber, President of Sunforce, “Symtx provides unique value to our customers, with quality, processes and efficient manufacturing that are required in today’s economy.”

About Symtx
