

VXI Technology releases new VMIP precision analog comparator/interrupter

VXI Technology releases new VM4018, 16 channel precision analog comparator/interrupter VMIP module

Irvine, CA - January 16, 2003 – VXI Technology, Inc. is pleased to announce the expansion of their high density VMIP (VXI Modular Instrumentation Platform) offering with the release of the VM4018, 16-channel precision analog comparator/interrupter module. Up to 48 channels can be configured in a single slot with input ranges spanning from +/-1.0V to +/-250.0V, programmable debounce circuitry, and flexible interrupt control.

We invite you to visit www.vxitech.com for detailed information on the VM4018, as well as their complete line of high density modular instrumentation and switch solutions.

Or download a PDF version of the press release <http://www.vxitech.com/files/articles/PressRI4018print.pdf>

Please feel free to contact us for technical information, or for price and delivery information.
